March 1, 2021

Dear Valued Customer:

As you may know, Laurel Aggregates has a fuel surcharge program, which calculates the surcharge as a percentage of the haul charge. This applies to transportation services provided by both Laurel Aggregates and Lake Lynn Transportation. Due to on-road diesel prices, we have not applied the surcharge in recent years.

Fuel surcharges are not applied unless diesel exceeds \$3.50 per gallon. We will continue calculating the current diesel price by taking the average of the prices reported by AAA for Wheeling, WV and Pittsburgh, PA. The current diesel price will be updated each billing cycle.

The surcharges are applied as follows:

<b><i>Current Diesel Price</i></b>	<b><i>Surcharge %</i></b>
\$3.50-3.599	+2%
\$3.60-3.699	+4%
\$3.70-3.799	+6%
\$3.80-3.899	+8%
\$3.90-3.999	+10%
<i>Etc...</i>	

The surcharge will be calculated by multiplying the haul rate by the current surcharge rate. A per ton example follows:

Haul Rate	Current Diesel Price	Surcharge	Total Haul Charge
\$10.00	\$3.55/gallon	\$0.20	\$10.20
\$8.50	\$3.60/gallon	\$0.34	\$8.84

AAA pricing information can be found at the following websites:

Pittsburgh Metro=<http://gasprices.aaa.com/?state=PA>

Wheeling Metro=<http://gasprices.aaa.com/?state=WV>

If you have any questions, feel free to contact us.

Sincerely,

Richard Rohrsen, General Manager
